

Dear Operating Room Nurses, Dear Colleagues,

EORNA is pleased to announce a brand-new educational grant from 3M.

For 2017 3M is offering EORNA an Educational Grant of € 10,000 to promote OR Nurse research and to publish findings.

This is an invitation to you to write and send in white papers on topics which are related to Infection Prevention measures along the surgical patient care pathway in the Operating Room.

All OR Nurse members of the National Association members of EORNA are encouraged to participate.

The white papers must be written in English.

The deadline for submission is **February 14, 2018**.

An independent EORNA review committee will decide which white paper(s) will be awarded the Educational Grant (up to 4 papers).

The white papers will be subsequently published in the EORNA e-Journal and also in OR nurse magazines across Europe.

EORNA is grateful for 3M's sponsorship this year and we look forward to consolidating that partnership in the years to come.

We look forward to receiving your submissions at [secretariat@eorna.eu](mailto:secretariat@eorna.eu)!
