

## COPENHAGEN

Copenhagen is known as one of the most environmentally friendly cities in the world and enjoys a central location in the heart of a major knowledge hub. This city is among the world's most popular convention cities, due to its easy accessibility, high levels of efficiency and low crime rate - and in recent years, successful organization of sustainable events in the record high number of eco-certified hotels and venues within the city.

The capital city seamlessly blends tradition with modernity; technology with beauty; and efficiency with friendliness. With Denmark as one of the oldest monarchies in the world and Copenhagen being one of the world's greatest design capitals, the city offers a wide variety of cultural experiences and stunning architecture within its compact city centre.

## INTRODUCTION

It all began in 2008 during an annual meeting of the British Anaesthetic & Recovery Nurses Association (BARNA) when several international nurse colleagues socialising in a London pub began to discuss the possibility of hosting a collaborative global conference that would include participation from other associations and agreed to give this idea a try.

As such, the first ICPAN was hosted by NAPANc in Toronto 2011 and the second in Dublin 2013. Now, we are happy to invite you to the 3rd International Conference for PeriAnesthesia Nurses in Copenhagen 2015.

## CONFERENCE THEME

The theme of the Copenhagen conference is:

*Sharing and Caring  
- Inspiring Global Connections*

SHARING initiatives in education, research, management and evidence based practice, and CARING for the peri-anaesthesia patient: clinical case studies in anaesthesia, post anaesthetic care, paediatric, elderly and surgical speciality groups.

Our conference theme demonstrates the broad scope of relevant topics in peri-anaesthesia nursing care that we aim to present to our delegates. We hope the chosen topics will generate interest and excitement.

Wherever possible, we will provide interactive forums which will allow networking, sharing of ideas, knowledge and expertise among our experienced speakers and enthusiastic delegates.

Please check our website [www.ICPAN2015.dk](http://www.ICPAN2015.dk) for abstract submission and for further details as our conference programme emerges.
